FOR THE POST OF
SR. IOS / MOBILE APP DEVELOPER

iOS Development Lead, Integration Engineer, Application Architect

Dear Sir/Madam,

I have **11+ years** of software development experience working business critical **Mobile, Web & Desktop Apps** integrated with back-end servers, **Web services** & 3rd party APIs

Expertise on **iOS with 8+ years**, worked on almost **all** mobile platforms including **Android, BB, Windows mobile & Others**.

In iOS, worked in C/C++, **Objective-C & Swift** 2/3/4 and on cross platform using Xamarin, React native

Hands-on experience in **PHP, .NET Desktop/Web /Services, react, node.js** for web Apps & APIs

Worked with Parse, Amazon AWS, azure, firebase & other cloud services

Worked in **Remote/Customer** collaboration & cross team coordination

Worked in **Helping & mentoring** Team members

Working on software/system **architecture and solution design**, have a very good sense of **User Experience** Design

Worked a lot with Photoshop, Sketch, XD, Illustrator etc.

Worked with **multilingual teams across EU, US & Middle East** in Real estate, Automobile, Education, Telecom and other industries

Travelled to **Denmark, London** for business purpose/On-site and to **Germany, France, Turkey** for tourism
